

INCIDENT MANAGEMENT SITUATION REPORT  
 FRIDAY, NOVEMBER 8, 1996 - 1000 MST  
 NATIONAL PREPAREDNESS LEVEL II

CURRENT SITUATION: Minimal fire activity was reported in the Southern Area and Southern California. The remainder of the United States reported no significant fire activity.

Southern Area Large Fires:

ACHING BACK, Daniel Boone NF. This arson fire started on 11/7/96. Strong winds and tornado warnings made suppression efforts difficult yesterday. The fire received one-half inch of rain and containment objectives were achieved last night.

OUTLOOK: A surface high pressure system over the Great Basin will bring Santa Ana winds of 20 to 30 MPH to southern California through Saturday. Breezy north to east winds will be prevalent in Arizona. The system will move east early next week and decrease the Santa Ana conditions. High temperatures in California will be in the 50's to 60's in the mountains, 70's along the coast, and upper 80's in the southwest deserts. A cold upper level trough centered over the Mississippi River valley will move to the Atlantic coast by Monday. The associated surface cold front over the area today will produce windy conditions with numerous showers and thunderstorms from the Carolina's to north Florida through this evening. Cool, breezy and dry conditions behind this front will dominate the area from Saturday through Monday. Temperatures will range from the 50's in the southeastern mountains to the 80's in south Florida today. The weekend will bring temperatures in the 40's in the mountains and the 70's in south Florida. Breezy conditions and temperatures will moderate by the middle of next week.
